Enjoy the beautiful fall colors while visiting a family monument that stands tall and lonely in a field; the waters that claimed the lives of a man, his wife & two horses; a pioneer family whose great, great grandson became a local legend; a cemetery named for a man who fathered 27 children; a memorial erected in a cemetery in memory of the German families who emigrated from St. Wendel in Germany; two men and the landmark that they created 172 years ago; a couple who married after a two day courtship and the extensive family that resulted; and a founder of the first Catholic church in Cohocton. We will dine around noon in the Village Hall in downtown Arkport!
